DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Chin [6344786].

Chin discloses: a coil form 1 having a hollow coil body 26 for insertion of a core 100 of an inductive element and having an outer surface for holding each coil 3, 2 of the inductive element, wherein the entire coil body is split into at least two elements 12, 14 with means to fit the elements together [by way of locking tab 84, cooperate with locking ramp 44] with to form the coil body [see col 5, lines 15-30].

With respect to claim 14, the coil body included a flange portion and a coil portion of a right cylinder, the coil is separated into two elements 34, 72 by a plane perpendicular to a base plane of the right cylinder as shown in figure 3.

Allowable Subject Matter

3. Claims 1-11 are allowed.
4. Claim 15 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 1 recites inter alia, *the separating plate is made of metal, having an opening for pushing the separating plate over the coil body and having a slit for prohibiting leakage currents within the separating*

plate,

Claim 15 recites inter alia, a separating plate for separating coils on the coil body and an additional hollow outer coil body for insertion of the coil body and for pushing over the separating plate.

The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Response to Arguments

5. Applicant's arguments with respect to claims 1-15 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
